Acquire: Import Data Using Requests + BeautifulSoup				3
Parse: Clean & Organize Data			2	
Model: Perform Logistic Regression				3
Evaluate: Logistic Regression				3
Present: Write a report for your audience addressing findings & recommendations				3

Notes:

- Overall excellent job. I did not find any code for the "Choose another area of Craigslist to scrape where retail arbitrage might be possible."
- Your kaggle Performance was excellent.

Score:

Your score is **17** out of a maximum of **18**.
